

Political Messaging Forecasting

Pricing Sheet | March 4, 2026 | v1 (Pilot to Validated)

Who This Is For

Campaign teams and political advertisers that want pre-post message risk forecasting before publishing: backlash risk, sentiment mix, aggression/offensive likelihood, and engagement direction.

1) Design Partner Pricing (Pre-Validation)

Pilot Lite

- \$2,000/month + \$1,000 setup | 6-8 weeks
- 1 account, limited simulation volume, baseline scorecards

Pilot Pro

- \$5,000-\$8,000/month + \$2,000 setup | 6-10 weeks
- 1-2 accounts, higher simulation volume, weekly review, priority support

Design Partner Terms

- Discount tied to case-study/reference rights
- Predictions logged before posting (pre-registered)
- Post-hoc scorecard at pilot close; monthly upfront billing

2) Validated Pricing (State Politics)

- State House / Small District: \$1,500-\$3,500 per month (or \$9,000-\$20,000 per cycle)
- State Senate / Competitive District: \$3,500-\$8,000 per month (or \$20,000-\$50,000 per cycle)
- Statewide / Caucus / Party Org: \$12,000-\$30,000 per month (enterprise support/SLA)

3) Pricing Logic

- Self-serve target: 1-3% of campaign budget
- Managed/embedded target: 3-8% of campaign budget
- No free pilots: paid pilots improve signal quality and commitment

4) Commercial Guardrails

- Scope controls by account count, simulation volume, and support tier
- Usage-based overage add-ons above plan limits
- Renewal tied to measured decision-lift vs baseline workflow

5) Validation Gate Before Full Rollout

- Multi-account forward validation
- Multi-seed robustness reporting (mean/std)
- Prospective decision-lift evidence in live pilots
